Hello my name is Ahmet Can. I'm 21 years old. I use a computer since my childhood. I was always wondering how to work softwares. I start coding to high school (14 years old). First my begining to language C# console app. 3 months later level up and form app. I watch a lot of science fiction movies. Iron Man movie is change my mind and life. I saw JARVIS and I'm wondering it be possible. I started first search i so hard to search because not any have information my language and no any one help to me but I'm stubborn. I always think is if we can dream or thinking is can possible in to real life. Finally i make it to EMILY this program made C# can be speech recognition, face recognition, search on the web. This project approved to Erasmus+, TÜBİTAK (Scientific and Technological Research Council of Turkey). Took me to Erasmus Belgium, Netherlands i made a presentation.
