SUMMARY

I am a professional Full Stack Web Developer. I am suitable for this position because I am so results oriented and I was able to develop skills such as HTML, CSS, PHP and SQL. My strong parts are web application optimization and knowledge of responsive design. I am looking for a challenging role where I can further hone my skills and be a valuable asset to the company.

WORK EXPERIENCE

2015 - Present **Freelance Web Developer**

Web design and programming work was carried out for more than one business and individual in accordance with the modern design and customer request

2016 - 2017 **I.T. Specialist Intern at Haberturk Newspaper**

In-company mail flow control was provided. Trouble-free operation of the computers in the company was ensured. The correct delivery of the daily newspaper to be printed was ensured.

2018 – 2020 **Web Application Developer at Jokerstore**

Increased the number of customers with social media and advertising.

A web application that processes and hosts the appointments, class hours and personal information of customers was built.

A web application that records and processes income and expenses has been made.

EDUCATION

2011 - 2015 **Cukurova Electric Technical High School**
High School Diploma, Web Programming

2016 - 2020 **Istanbul Esenyurt University (Dropped)**
Bachelor's Degree, Electrical and Electronics Engineering

Projects

Learning Python and offensive security to making tutorials for my blog page.

To voluntarily create a free support platform for LGBTQI+ community in the future.
