Professional Background

Title	Company Name	Starting Date	Ending Date
Software Development Group Head	SMART MESSAGE - ODC Business Solutions	12.2019	Still Working
Job Definition			
Group Head of 3 teams for software development with 3 team leaders with different locations, and also 1 team for customer support with 1 team leaders. We have 5 different products existing and used by more than 2000 customers all around the world. I build up a İzmir team in 4 months with 20 people with different experiences. We also have a newly created marketing platform project which is a SAAS product to serve the omni channel marketing for our customers in microservices architecture and developed by .NET Core with single UI with React.			
Title	Company Name	Starting Date	Ending Date
Software Development Manager	COMODO – NURD Innovation Center	06.2019	12.2019
Job Definition			
Currently leading multiple technical teams, building a large scale SaaS product. Introduced process changes to maintain quality as the team increased in size and expanded to multiple locations. Primary responsibilities include, but are not limited to, technical direction on building highly customer focused and large scale software components, overseeing agile software development process, working with various stakeholders (PDM, TL, UX, Business/Operations Leads) on requirement/design/integration of software components, addressing customer issues/escalations and last but not the least, providing production support to existing systems.			
Title	Company Name	Starting Date	Ending Date
Delivery Manager	Koçsistem Bilgi Ve İletişim Hizmetleri A.Ş.	04.2016	06.2019
Job Definition			
KoçSistem is one of the pioneering organizations of the IT sector in Turkey. There are several software development groups. I was working as a delivery manager for 3 projects like Setur Marinas and Schneider SAP projects. After the sector division is applied all over the company I was working as a delivery manager of Otokar, Otokoç, FleetCorp and also Mercedes with variety of web applications and integrations projects with 8 people on my team for 3 years.			
Title	Company Name	Starting Date	Ending Date
