# ATILAY KÖŞKER

Phone: **+90 545 335 36 09**  
Email: **atilaykosker@gmail.com**

I have been working full stack on web development. I work with .NET, NodeJs, React, React Native and some other technologies. Also, written unit tests. I am highly motivated and always willing to learn. I have knowledge of writing clean code and software principles and philosophies.

## LANGUAGES

Turkish(Native)  
English(B2)

## WORK EXPERIENCE

10/2020 - Present - **Vega Grup Yazılım Ltd Şti.**

In the company I'm currently working I have done developments on e-commerce projects. I have done integration for communication and payment, with tests I have also participated in the code optimization process.

- I made developments using React on the frontend also used ASP.Net for editing old pages.
- I worked with NodeJS for the backend of the project and wrote some services with .Net Core.
- I generally work on MsSql in projects, and I also used MongoDB for different solutions.
- On the test side, I used mocha enzyme and jest.

05/2019 - 10/2020 - **Serçe Teknoloji Ltd. Şti.**

I am the founding partner of Serçe Akademi, a learning management system that serves students in robotics and coding. I personally experienced the process of designing a system from start to finish and serving customers. The company continues to serve, but I am no longer working.

- I have used Html/Css, Javascript for the frontend of the project.
- I worked with .Net Core for the backend of the project.
- I was involved in all the designing, selling, receiving feedback from users and developing the product.

2018 - 02/2019 - **Freelance**

I used WordPress for web projects, and I have written interactive pages with Html/CSS and Js. I made
