**03.2019**

Job Type  
**Freelance**

Job Definition

I provided Web design/development and SEO services for the needs of my clients. I have extensive experience ranging from domain/hosting purchase to web development, from SEO to panel administration training. The core technologies I use:

- Bootstrap-based responsive UI
- Re-Design Joomla Themes
- Creating/Modifying/Optimizing CSS and JavaScript
- Integration of 3rd Party Joomla packages
- SEO Optimization
- Basic MySQL operations

Some of my web sites:

• <http://www.fotooral.com>: This web site developed for "Oral Fotoğrafçılık Company" I used WRAP Framework for front-end. I used 3rd Party components such as FW Gallery and Google Maps.

• <http://www.yatkinpsikoloji.com>: This web site created for "Yatkin Psikoloji Danışmanlık Hizmetleri" company, based on Joomla, I used Gantry5 Joomla Framework for front end, some Bootstrap components and made Facebook and Tawk integration.

**Permanent / Full-time**

Job Definition

In this company, which exports international fruit and vegetables, I have recorded and analyzed all the inputs and outputs. I was a computer technician at the company, fixing software and network errors. I also set up a VPN for internal use and maintained the programs already purchased from 3rd party companies. Additionally I was also involved in accounting and hardware upgrades.
