Summary

Hello, I am Onur ÇAĞILCI, I worked in the field of project management on 5 projects. ("Havelsan Task Management System" "Cloud City Information System" "Electronic Passenger Ticket System" "Şabanözü Municipality"). I carried out active testing activities on 6 projects. (Param Banking application in addition to the above projects). I have already developed and published an application in the react native field. When we look at the usage rate in the market, I carry out my studies in this field as a result of the intense interest shown to Flutter.

Skills   **Analysis, Flutter, Project Manager, Mobile Application, JavaScript, React Native**

Projects

Project Name	Project Date	Project URL
Masal Evi	**10.2019**	**https://play.google.com/store/apps/details?id=com.masalhikayem**

Project Description
We developed our application called Masal Evi which was written in front-end section with React-Native and back-end section with .Net Core. I was completely interested in the front-end and designed the current design of the application. We continue to improve our application with a handy UI already provided by React-Native.
