Projects

2020 Sep. Present

TIKLA GELSIN
Eteration A.Ş.
Tıkla Gelsin is a popular and strongest online food ordering app in Turkey.
- We wrote a GraphQl middleware service with Nestjs. We developed the mobile application from scratch with React Native and we preferred Apollo Client. After the mobile application, we made the web application with React. Reviewed merge requests. Mentor of new starters.

2019 Feb. 2020 Sep.	**ALBARAKA MOBILE** *Eteration A.Ş.* Albaraka is a well-established bank with milions of thousands of users. - I worked as a Full Stack (FE) developer in Albaraka Mobile application. We developed the mobile application from scratch using Redux and saga. I also took various tasks in the Backend (Spring Boot) developed in accordance with the Microservices architecture.
2019 Oct. 2020 Feb.	**ETERATION BOOTCAMP - INSTRUCTOR & MENTOR** *Eteration A.Ş.* Bootcamp is an annual training camp organised by Eteration for new grads. I worked as an instructor and mentor in Bootcamp.
2018 Oct. 2019 Feb.	**REPORTBACK.CA** *Eteration A.Ş.* - Coding most of the functionality for three front-end projects which are admin panel, customer'sdashboard, customer's report page, which is a slideshow, using React with Redux/Saga frombeginning to deployment. - Migration from monolith to microservices architecture using Spring Boot and NodeJS

A short presentation about GraphQL.
