Fullstack Developer
Eylül 2015 - Şubat 2017 (1 yıl 6 ay)

Paradox Creative Web Solutions
Software Developer
Aralık 2014 - Temmuz 2015 (8 ay)

Sesli Harfler
Software Developer
Mart 2012 - Kasım 2014 (2 yıl 9 ay)

You see, SesliHarfler is a name that comes from a sentence that clearly points out the problem and the solution for communication sector. Therefore we are providing solutions everyplace where our name is being pronounced since 2006.

We are not doing a simple business. Our job gets tougher everyday unlike what is being thought. We have not came through from the days where A4 sized designs being sent to digital agencies to the days where the digital ideas became the heart of all the campaings easily. But we have always managed to point down the guns that have been targeted towards our clients with reasonable solutions. We are always proud to offer "the effective solutions at the right time".

We have always been happier with clients that had not care how many people our crew was but what we have done as an agency. Some of you may think "they are only 10 people or so" after reading the previous sentence. Sorry, but we are 54 people at the moment. Yes, we are a crowd but not just to make a crowd.

You may hear lots about us if you asked here and there. We advise you to make you own decision about us whether you hear good or bad rumours. Because we are a company not to be critisized by others but you.

There is no need to explain any longer. If we are going to explain lots of thing about ourself then it means we do not have anything other to tell. Last word, if you do feel like you have a gun between your teeth you better do something.

Eğlenceli Fırsatlar
