EXPERIENCE

- **Lead Frontend Developer**
  Emakina.TR | from Mar 19

- **Project Based Remote UI Dev.**
  Flexwork.io | from Jan 16

- **UI Designer & Dev**
  Gobito Ent. Solutions | Jan 15 - Sep 16

- **UI Designer & Dev**
  Veriser | Dec 13 - Dec 14

- **GUI Designer**
  Bahçeşehir Uni. Eng. Faculity - ISTKA Mar 13 - Oct 13

- **Web Designer**
  Tecpro I.T | Feb 10 - Jan 13

PROJECTS

- **yslbeauty.ae**
  Lead frontend developer
  Salesforce, HTML, SCSS, jQuery

- **lotusyogaapp.com**
  Frontend Developer
  HTML, SCSS, Angular 9

- **elizawashere - sunweb (.nl / .be)**
  Part of frontend development team
  Sitecore, Handlebars, HTML, SCSS, javascript

- **promokoerier.be**
  Frontend Developer
  Drupal, HTML, SCSS, jQuery, Twig

- **blaundusyachts.com**
  Frontend Developer
  React, SCSS

- **offers.volkswagen.be**
  Frontend Developer
  Drupal, React, SCSS

- **ae.loccitane.com**
  Part of frontend development team
  Salesforce, HTML, SCSS, jQuery

- **corvo Identify**
  Lead frontend developer
  Backbone, HTML, SCSS, jQuery

- **medicine interaction guide app**
  UI designer & Frontend developer
  Adobe Illustrator, Ionic, HTML, SCSS, jQuery

- **akademi.net**
  UI designer & Frontend developer
  Adobe Illustrator, HTML, SCSS, jQuery

EDUCATION & COURSES

- **Bahçeşehir Uni. VA & VCD - Bachelor Degree**
  2008

- **Modern React with Redux - Udemy**
  2019

- **Js: Understanding the Weird Parts - Udemy**
  2019

- **The Complete React Native and Redux Course - Udemy**
  2019

SKILLS

React, HTML5, SCSS , LESS, JS, Jquery, Razor

ABOUT RECENT PROJECTS

Yves Saint Laurent

As the lead frontend developer and the point of contact, I was in charge of scrums, sprint plannings, backlog grooming and estimations for Yves Saint Laurent (ae). Main goal of the first phase was to build up fully functioning SFRA website which also supports arabic language and multiple countries. I was also responsible for examining given UI's and edit them if necessary which needs a close communication with the UI/UX team. So my graphic design backgorund was very helpful for speaking the same language with the design team.

For the development part, i was mainly focused on PDP, PLP, account and checkout process. In addition to these fundemantal parts, we've created a kitbuilder, which mainly allows customer to pick n products from given categories in Business Manager in order to create a product set and get one free product. Also discount coupons, multiple payment options, shipping cost calculations, store locator and page designer are fully functional on production.

L'Occitane en Provence

Worked as a part of frontend team. Mainly focused on user account, cart, mini-cart and PLP. Also worked on content assets and slots in order to create reusable page components. Based on SFRA, L'Occitane en Povence (ae) currently supports multiple languages including arabic and multiple countries.

Make Up For Ever

Partly invovled in the SFRA based Make Up Forever (ae). Was responsible for frontend setup (ISML - SCSS) of the project. Created base layouts, header and footer. Also refactored / updated PDP and checkout process in latter stages. Currently website supports multi countries and multi languages including arabic.
