Front-End Developer

Hello! I am passionate about computer and software technologies. I love learn, share and teach. My whole life is spent with learning and developing myself in something about technology. I enjoy to graphic design and software so much!

Specialties: HTML5, CSS3, Javascript, JQuery, Vue.js, Bootstrap, SCSS, C#, .NET, Svelte.js, TailwindCSS
Technologies: Bootstrap, Svelte, ESlint, Webpack, Vue, Wordpress, Tailwind, Sass
Languages: English: B2

Programming resources used for self-learning: MDN, W3Schools, Stack Overflow, Free Code Camp, Tech with Tim, Roadmap.sh, Maximilian Schwarzmüller.

Interests： I'm very interested in the web. I'm Front-End focused, trying to make designs and user experience, especially things that peoples have never seen before. Besides, I had the opportunity to work with adobe technologies at professional level. I am doing graphic design as a hobby.
I am also trying to get to know Back-End technologies.

PROFESSIONAL EXPERIENCE

Earnado *Yurtiçi Remote*	**February 2021 – June 2021**
