Summary

This is Eldar from Russia, a Full-Stack Engineer with 4 years of experience in Web/App Development. My significant stack is React.js and I have good knowledge of it. I have been involved in some React.js projects and it was great. I have freelance experience on Upwork for many years. I am particularly proud of my React.js skill and I have confidence in any React.js project. According to my skills and experience, I am sure I can provide perfect work in time. I am always happily putting myself to the test. Thank you for reaching out to me.

Experience

Full Stack Engineer

Upwork

Dec 2019 - Apr 2021 (1 year 5 months)

I have been involved in some React.js projects on Upwork and Clients reviewed 5 stars on my work. My favorite CSS framework is TailwindCSS and I have good knowledge of Paas. I am also good at Express, Laravel, Django as Backend and PostgreSQL, MongoDB, MySQL as Database.

Education

Moscow State University

Bachelor's degree, Computer Science

Sep 2015 - Sep 2019

My major course is Computer Science and I have been awarded many coding challenges. I started programming with C/C++ and have good knowledge of Algorithms and Data Structure. This makes me easy to go through Web Development.

Skills

React.js • Solidity • Tailwind CSS • PostgreSQL • Vue.js • Next.js • Laravel • Django • MySQL • MongoDB
