Computer Engineering

EXPERIENCE

07.2018 - present
Intertech
Junior Software Developer
I designed **avatar, card, col, divider, icon, list, pagination, progress, responsive, skeleton, tab and steps React.JS** components in the UI transformation project called Surface.
In the project we manage user authentication called SSO, I took part in the development of the reporting screens and in the web services that should work in the user recruitment and exits.
In this project, we also manage **active directory** and **exchange server** with **LDAP** query connection.

07.2017 - 08.2017
Innoville
Intern Software Developer
I worked on a project about layered architectures. In this project I wrote the Data Access layer which provides access to the database.
